

### **COCKTAIL DERMA-FIRMING® - Firming complete treatment**

Kind of injection:

- Intradermal, papular, point by point injection with grid 1cm distant each in order to cover all area to be treated;

Angle: 15°/30° angled

Needle: from 30 to 32G Gauge length 4mm

Quantity x point of injection: 5 U.I

Note: it's possible use circle or linear multi-injector (in case of multi-injector, every point of placing, 5 U.I x the number of needles on the multi injector) example: circular multi-injector 5 ways = 5 U.I x 5 Ways = 25UI per placement.

Areas: Face, Neck, Décolleté, Arms

Frequency: 1 time weekly for 5 weeks

### **COCKTAIL DERMA-REPAIR® Scars and Stretch Marks Regeneration**

Treatment

Kind of injection:

- Intradermal point by point injection directly in scars tissue or stretch marks tissue in order to cover entire area;

Angle: 15°/30° angled

Needle: from 30 to 32G Gauge length 4/8 mm

Quantity x point of injection: 5 U.I

Areas: Face (ex. Post acne scar), Body (ex. Stretch Marks)

Frequency: 1 time weekly for 5 weeks or till the result are satisfying.

### **COCKTAIL DERMA-LIFTING® Lifting "Botox like effect" Peptidic Treatment**

Kind of injection:

- Intradermal, papular, point by point injection with grid 1cm distant each in order to cover all area to

be treated;

- Nappage technique;
- Muscle “Botox like” injection;

Angle: 15° angled in case of intradermal or Nappage technique, 90° for Botox like injection directly into the muscles like glabellar, corrugator etc.

Needle: from 30 to 32G Gauge length 4 mm

Quantity x point of injection: 5 U.I

Areas: Face, Neck, Decolletè, Hands.

Frequency: 1 time weekly for 3 weeks or till the results are satisfying.

### **COCKTAIL DERMA-HYDRATING®** - Hydrating treatment with linear Hyaluronic acid

Kind of injection:

- Intradermal, papular, point by point injection with grid 1cm distant each in order to cover all area to be treated;
- Nappage technique;

Angle: 15° angled

Needle: from 30 to 32G Gauge length 4 mm

Quantity x point of injection: 5 U.I

NOTE: it's possible use circle or linear multi-injector (in case of multi-injector, every point of placing, 5 U.I x the number of needles on the multi injector) example: circular multi-injector 5 ways = 5 U.I x 5 Ways = 25UI per placement.

Areas: Face, Neck, Decolletè, Hands

Frequency: 1 time weekly for 5 weeks or till the result are satisfying.

### **COCKTAIL DERMA-BIO®** - Biorevitalizing complete treatment

Kind of injection:

- Intradermal, papular, point by point injection with grid 1cm distance between each in order to cover

whole area to be treated;

- Nappage technique;

Angle: 15°/30° angled

Needle: from 30 to 32G Gauge length 4mm

Quantity x point of injection: 5 U.I

Note: it's possible use circle or linear multi-injector (in case of multi injector, every point of placing, 5 U.I x the number of needles on the multi injector) example:

Circular multi-injector 5 ways = 5 U.I x 5 Ways = 25UI per placement.

Areas: All face, Neck, Decolletè, Hands.

Frequency for biorevitalisation: 1 time weekly for 5 weeks

NOTE: for micro Botox mixed injections it's suggested to add into 5 ml full vials of Derma-Bio Cocktail® 5 units of botox, and inject Intradermally the mix with point x point technique injection.

### **COCKTAIL DERMA-EYE® - Anti Bags and Anti Dark spots Eye complete treatment**

Kind of injection:

- Point by point intradermal but very superficial injection, in order to cover all area to be treated;

Angle: 15° angled

Needle: 33G or 32G Gauge length 2/4mm

Quantity x point of injection: 2/4 U.I point, 0.4ml per eye at most

Areas: Under and around Eye area, this means under the bags only or orbital rim, very superficial.

Frequency: 1 treatment every 7 days till the result are satisfying.
