

IMPORTANT: PROTOCOL MUST BE FOLLOWED CLOSELY.

COCKTAIL DERMA-EYE® - Anti Eye Bags complete eye treatment.

The client is not a candidate for this treatment if they do not have eye bags. This is a powerful draining product.

This is not to be used above the orbital rim or under the lash line. We are not responsible for adverse reactions or complications due to practitioner error. These are strong medical grade products.

Kind of injection:

Point by point very superficial injection, in order to cover full area to be treated.

Angle: 15° angled

Needle: 33G or 32G Gauge length 2/4mm

Quantity: 0.2ml per eye

Maximum Frequency: minimum 2 treatments, 2 weeks apart

A full treatment plan needs to be determined from the start with each individual client. Every client is different.
